SYCAMORE CREEK

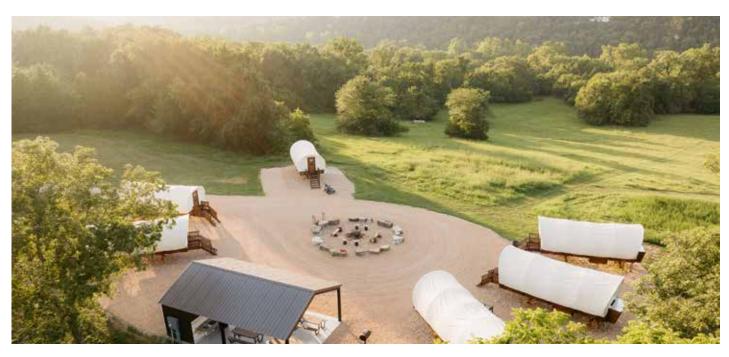

ADVENTURE MANUAL

An abundance of wildlife make their home on the Sycamore Creek property. In addition to our farm animals, you may see herds of deer, flocks of wild turkey, and eagles. As you gaze at the stars around the campfire at night, you may hear coyote howling, owls hooting, crickets chirping, and frogs croaking in harmony. Two bobcats have been known to wander onto the property from time to time. Other residents include squirrels, an abundance of birds, armadillos (stay away from dead carcasses if you see one - due to disease), opossums, and snakes (some poisonous).

WHAT TO WEAR

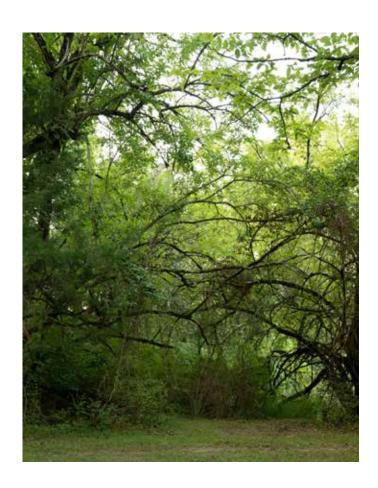

Due to the terrain, we recommend wearing closed-toe shoes.

We also recommend wearing sunscreen and bug repellant. (Be sure to bring some with you!)

At the end of each day - or at the end of your trip, you will want to check for ticks.

REMOVING A TICK

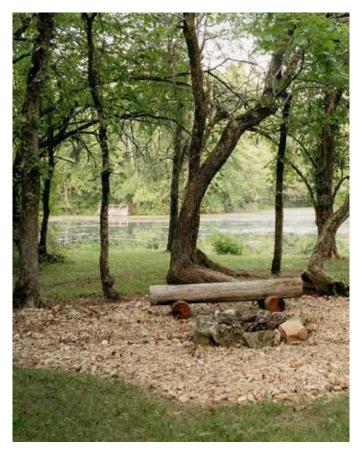

Pull up on the tick with steady pressure until it releases. It may help to press down on the skin on either side of the tick.

Clean the tick bite thoroughly with alcohol or soap and water.

Wet a cotton ball with alcohol. Apply rubbing alcohol liberally to the tick. This should help it loosen its grip as it breathes in the fumes of the alcohol.

Using a pair of tweezers, grab the tick as close to the skin as possible. Your goal is to pull out the entire tick - including its head.

ACTIVITIES AVAILABLE

Activities at The Gathering Place* (Our Common Area)

Cornhole

• Farm-Style

Bocce Ball

Frisbee Golf

Pickleball

• Low Elements

Horseshoes

Challenge

Ladders

Course
